

FS2025

## **Current Topics in Geosciences (VV-Nr. 24210)**

**Mittwoch, 16.15 bis ca 17.30 Uhr, Hörsaal 223, Bernoullianum**

---

**26. Februar 2025**

**Dr. Uta Heiden**, Remote Sensing Technology Institute (IMF), German Aerospace Center (DLR)

**Mapping soil functions from remote... (prov. Titel)**

Host: Christine Alewell

---

**05. März 2025**

**Dr. Dave Janssen**, Group leader, EAWAG

**Trace elements in anoxic lakes: What can we learn about modern and past biogeochemical cycles?**

Host: S. Nemiah Ladd

---

**09. April 2025**

**Prof. Dr. Severin Irl**, Biogeography and Biodiversity Lab - Institute of Physical Geography, Goethe-University Frankfurt

**Tresure Island in peril? Drivers of insular biodiversity and human-induced threats to islands**

Host: Wolfgang Fister

---

**21. Mai 2025**

**Dr. Christian Folberth**, Research Scholar, Agriculture, Forestry, and Ecosystem Services (AFE) Biodiversity and Natural Resources Program (BNR), International Institute for Applied Systems Analysis (IIASA)

**Augmenting process-based crop modelling with machine learning**

Host: Florian Zabel

---

**Weitere Daten folgen**
