

HS2025

Current Topics in Geosciences (VV-Nr. 24210)

Wednesday, 4:15-5:30 pm, lecture hall 223, Bernoullianum

5 November 2025

Prof Dr Okan Tüysüz, Institute of Earth Sciences, Istanbul Technical University

Earthquakes in Türkiye (prov. Titel)

Host: Dominik Fleitmann

12 November 2025

Dr Nora Richter, Department Surface Waters Research & Management, eawag Dübendorf

Titel: tba

Host: Moritz Lehmann

19 November 2025

Dr Steffen Seitz, PD, Research group leader "Soil Erosion and Ecosystem Research", Soil Science and Geomorphology, Eberhard Karls University Tübingen

Erosion and Vegetation revisited: How do plants protect our soil?

Host: Wolfgang Fister

26 November 2025

Dr Sven Kotlarski, Teamleader Climate Evolution, Federal Office of Meteorology and Climatology MeteoSchweiz

Switzerland's changing climate: Observations, future projections, impacts

Host: Stefanie von Fumetti

03 December 2025

Prof. Dr. Thomas R. Ward, Director of the NCCR Molecular Systems Engineering, Department of Chemistry, University of Basel

Augmenting process-based crop modelling with machine learning

Host: Moritz Lehmann
